## IPM statement

It is the goal of Lincoln Unified School District to implement this IPM by focusing on long-term prevention or suppression of pests through accurate pest identification, by frequent monitoring for pest presence, by applying appropriate action levels, and by making the habitat less conducive to pests using sanitation and mechanical and physical controls. Pesticides that are effective will be used in a manner that minimizes risks to people, property, and the environment, and only after other options have been shown ineffective.

### Pest management contracting

1. Pest management services are contracted to **Advanced Integrated Pest Management**, a licensed pest control business.
2. Prior to entering into a contract, the school district has confirmed that the pest control business understands the training requirement and other requirements of the Healthy Schools Act.

### Pest identification, monitoring and inspection

Pest Identification is done by Lincoln Unified School District staff and from Advanced Integrated Pest Management

Monitoring and inspecting for pests and conditions that lead to pest problems are done regularly by **Advanced Integrated Pest Management** and results are communicated to the IPM Coordinator.

Specific information about monitoring and inspecting for pests, such as locations, times, or techniques include:

1. Sticky traps
2. Gel baits
3. Rodent traps
4. Box traps

### Pests and non-chemical management practices

Lincoln Unified School District has identified the following pests and routinely uses the following non-chemical practices to prevent pests from reaching the action level:

Pest	Remove food	Fix leaks	Seal cracks	Install barriers	Physical removal	Traps	Manage irrigation	Other
Ants	X		X	X	X	X		
Cockroaches	X		X	X	X	X		
Mice	X		X	X	X	X		
Rats	X		X	X	X	X		
Squirrels	X		X	X	X	X		
Weeds				X			X	

## Chemical pest management practices

If non-chemical methods are ineffective, Lincoln Unified School District will consider pesticides only after careful monitoring indicates that they are needed according to pre-established action levels and will use pesticides that pose the least possible hazard and are effective in a manner that minimizes risks to people, property and the environment.

Lincoln Unified School District expects the following pesticides (pesticide products and active ingredients) to be applied during the year. (This list includes pesticides that will be applied by school district staff or licensed pest control businesses.):
